

1064nm solid-state pulsed laser

PERFORMANCE

Product Parameters	
Wavelength	1064nm±1nm
Output Energy	>50mJ
Pulse Width	8~11ns
Frequency	20Hz
Cooled Method	Air cooled
Operating Temperature	0~+40°C
Expected Life Time	>10000h

FEATURES

- Small size
- Compact structure
- High peak power
- RS422 upper computer communication

APPLICATIONS

- Electronic countermeasures
- LIBS
- Laser burns or ignites
- Laser radar
