

Multi-specification fiber coupled laser

PERFORMANCE

Product Parameters	
Wavelength	405nm, 455nm, 488nm, 505nm, 520nm, 638nm, 808nm, etc.
Power	0~50mW, 1W, 10W
Operating Mode	CW/TTL
Power Stability	<3.0%
Beam Divergence	3 μ m, 4 μ m, 9 μ m, 105 μ m, 200 μ m
Working Voltage	AC 220V
Interface Model	SMA905, FC
Operating temperature	0 ~ +40 $^{\circ}$ C, +15 ~ +35 $^{\circ}$ C
Expected Life Time	>10000h

FEATURES

- Directional stability
- Stable power and low noise
- Single mode & multi-mode fiber output
- Optical fiber communication

APPLICATIONS

- Optical fiber communication
- Clinical care
- Optical detection
- Laser processing
